SUMMARY

CSE graduate skilled in building responsive, accessible web interfaces with HTML, CSS, JavaScript/TypeScript and React. I have taken three projects from Figma design to working code, including real-time messaging and Supabase authentication. Looking for a front-end internship where I can turn UI designs into clean interfaces, learn from code reviews, and work with backend teams.

EDUCATION

BSc in Computer Science and Engineering — United International University 2022 – 2026
CGPA: 3.8

Higher Secondary Certificate — Nou-Bahini College, Chittagong 2019 – 2021
GPA: 5.00

PROJECTS

CookBook — Recipe Sharing Platform *Mar 2026 – Jun 2026*

React, TypeScript, Tailwind CSS | github.com/Hasib30293/CookBook

- Designed the UI in Figma, then built it as a responsive, accessible React + TypeScript interface (owned the full design-to-code workflow).
- Built recipe browsing, step-by-step recipe views, and user-submitted recipes, with authentication and backend powered by Supabase.

Earn-N-Learn — Campus Skill-Share & Job Platform *Feb 2025 – Oct 2025*

React, TypeScript, Tailwind CSS, Node.js / Express, MySQL, Socket.IO | github.com/Hasib30293/Earn-N-Learn

- Built a full-stack marketplace for skill-sharing, job postings, and study-material exchange between students.
- Connected the React front end to an Express/MySQL backend and added real-time messaging with Socket.IO.
- Designed a “My Work” dashboard (applications, invoices, tasks) and wallet tools (transactions, savings goals, rewards).

WorksLink — Collaborative Project Management Platform *Oct 2023 – Dec 2023*

Java, JavaFX, Maven, CSS | github.com/Hasib30293/WorksLink

- Built a desktop app with customizable team workspaces, member management, and real-time progress indicators (AOOP course project).

SKILLS

- **Front-end:** HTML, CSS, JavaScript, TypeScript, React, Tailwind CSS, responsive design, Figma
- **Back-end & Data:** Node.js / Express, MySQL, Socket.IO, SQL
- **Tools:** Git & GitHub, MS Word / Excel / PowerPoint
- **Programming & Concepts:** Java, C, C++, Python; OOP, Data Structures, Algorithms

RESEARCH (ONGOING)

- **Bioinformatics:** A Transferable Cell-Type Representation Framework Across Heterogeneous Spatial Proteomics Datasets.
- **Wireless & Networking:** Low-Power Multi-Hop LoRa Network for Automated AWD Rice Irrigation, using weather-aware emitter control and packet aggregation.

ACTIVITIES

- General Member, Computer Club, UIU. Built rover and RoboSoccer robots using Arduino, sensors, ESP-CAM, and embedded systems.
